PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience building production-grade platforms using PHP (Laravel), React.js, and Tailwind CSS. Contributed to end-to-end development of B2B SaaS products — a Vendor Management System (VMS) and a CRM platform — under the eSyncora ecosystem, as well as an e-commerce platform (FirstShake) featuring a Brand Portal and Creator Portal. Experienced in QA testing, agile tooling (Jira, Slack, Loom), and delivering responsive, scalable web applications.

WORK EXPERIENCE

Full Stack Developer – CRM Platform

Jan 2026 – Present

crm.esyncora.com

- Developed and maintained the CRM platform built on PHP (Laravel) backend and React.js frontend with Tailwind CSS.
- Implemented Leads & Deals modules including Kanban board, Reports, and pipeline funnel charts with full mobile responsiveness.
- Built RelatedTasks component with role-based read/edit access and deep-link URL navigation between modules.
- Fixed Windows filesystem case-sensitivity issues in TypeScript and resolved reCAPTCHA v3 login issues on localhost.
- Integrated custom toast notification system across Deal pages using react-hot-toast.
- Debugged Laravel backend contact form email delivery issues in production environment.

Full Stack Developer – VMS Platform

Jan 2026 – Present

vms.esyncora.com

- Developed Vendor Management System (VMS) using PHP (Laravel) as backend and React.js as frontend.
- Built vendor onboarding flows, procurement modules, and dashboard analytics for B2B clients.
- Ensured cross-device responsiveness and performance optimization across the platform.
- Collaborated using agile methodology with Jira for task tracking and Slack/Loom for team communication.

Full Stack Developer – E-Commerce Platform

Jul 2025 – Jul 2026

- Developed a full-stack e-commerce platform using PHP (Laravel) for backend and Tailwind CSS for frontend.
- Built two core portals: Brand Portal (brand onboarding, product listing, order management) and Creator Portal (influencer campaign management, affiliate tracking).
- Integrated Shopify API for seamless product and order sync between the platform and vendor storefronts.
- Implemented authentication, role-based access control, and RESTful APIs consumed by the frontend.

QA Engineer – FirstShake Platform

Jul 2025 – Jul 2026

- Performed functional, regression, and UI testing across Brand Portal and Creator Portal features.
- Documented and tracked bugs using Jira; coordinated resolution with the development team via Slack and Loom.
- Verified API responses and tested end-to-end user flows to ensure production readiness.
- Maintained test case documentation and participated in sprint review cycles.

TECHNICAL SKILLS

Languages

PHP, JavaScript, HTML5, CSS3

Frameworks	Laravel, React.js, Next.js, Tailwind CSS
Databases	MySQL, PostgreSQL
Tools	Jira, Slack, Loom, Git, GitHub, XAMPP, Vercel, Brevo
APIs	Shopify API, RESTful APIs, reCAPTCHA v3, SMTP / Email Delivery
QA & Testing	Functional Testing, Regression Testing, Bug Reporting, Test Case Documentation
Other	Responsive Design, Mobile-First Development, Agile / Scrum
